

Allied Advisor: Delivering Value for Wood Products Companies. Every Day.

In the wood products industry, insurance is often seen purely as an expense—"gotta have it", but the only value you get back is if you make a claim.

ALLIED HAS A BETTER MODEL. We treat insurance as an investment—and we're committed to delivering value whether you make a claim or not. We give you more than the right insurance policy at the right cost—we give you Allied Advisor, unique solutions to help you save time, gain a competitive edge, and run your business more efficiently. With Allied Advisor you get:

- **Lumber, wood products, and building materials** insurance programs and risk management solutions to reduce total insurance cost and strengthen your building materials business
- **Webinars**—quarterly online webinars on safety and loss control best practices
- **MyWave® Elements**—a free, personalized risk management web site with OSHA logs and a comprehensive library of loss control and safety tools, designed exclusively for Allied wood products industry clients
- **In-house Safety and Loss Control Services**—our experts help you reduce your exposures, maintain compliance, and much more
- **CSR-24**—online access, 24/7, to issue certificates of insurance and auto ID cards
